March 1, 1994

Dear Friends,

A very important election is approaching us in the City of Arcadia. It will in many ways determine the future direction of our City.

Our schools have always been a major consideration of those who have made their homes in Arcadia, and the excellence of our educational system requires the continued support of our Community.

Ruth and Charles Gilb have been strong supporters of our school district since 1960, when the family moved to Arcadia. While their daughter Valerie was enrolled in our schools, Ruth served on the Arcadia PTA Council Board. Ruth and Charles have supported the Arcadia Educational Foundation since its inception, and Charles served for two years as Chairman. The Gilbs' continuing support of the sports and music programs is another example of their dedication.

Why is this important? The City Council and the School Board are separate entities. Yet, the well-being of our school system is an important element of the health of our City.

It is very important for us to keep the two ruling bodies separate. We cannot have decisions of the Council dependent upon the School Board, and conversely, we cannot have School Board decisions unduly influenced by the City Council.

Ruth Gilb will serve independently and fairly on the City Council if we give her the necessary support. She has the business experience and abilities to direct our City in a reasoned and logical manner. With her many years of involvement with the schools, she understands the importance of their well-being, and can function freely as a member of the Arcadia City Council with absolutely no conflicts of interest. She is the ideal candidate.

We ask that you support her in the election and give her your vote on April 12. Her committment is to work for a better Arcadia.

Sincerely,

John Sinclair
